Innovation

COIN-OPEN STYLE AERATOR

- 1. Coin-Open design, easy for installation and cleaning.
- 2. With coin-open tools, easy for installation and cleaning at any time.

EMBEDDED AERATOR WITH DIRECTION

- 1. Thin shape and embedded installation design makes our faucets more elegant & practical.
- 2. Honeycomb style aerator reduce scale-forming. Good water flow effect under strict flow Condition.
- 3. Good protection to aerator with embedded installation design, not easy damaged.
- 4. Easy adjustment of flow direction on aerator.
- 5. Special tool for easy installation and cleaning.

HONEYCOMB STYLE AERATOR

- 1. Distinguished from common metal filter design, better prevention of scale & longer lifespan.
- 2. Perfect water flow under variety flow condition.
- 3. Low Noise.
- 4. Anti-impurity filter device embedded.
- 5. Plentiful bubble, comfortable bathing.

KITCHEN FAUCETS

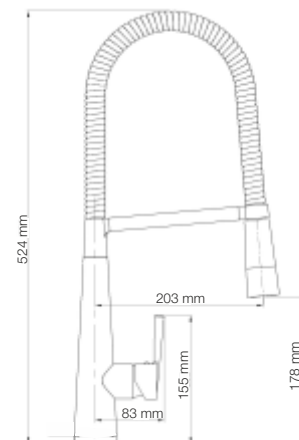

A Graffiti Mixer will bring style, ergonomics and long-term reliability to your kitchen.

These days the kitchen is the very heart of the home, a place to express yourself. At the very centre of any kitchen is its sink and tap. No other items better encapsulate the kitchen's balance of form and function, and Graffiti is uniquely places to support your lifestyle choices through a diverse range of styles to suit any personality

Care and Maintenance

- Clean the aerators provided in the items at regular intervals for a perfect foam flow of water from the fittings.
- Clean the fitting regularly with normal soap or chalk powder to remove scaling or stains . Do not use strong detergents as this may cause damage to the chromium finish used on all Grafdoyer products.
- Do not use harsh cleaning agents containing abrasives and acids. Instead, use a soft sponge or wet cloth with soapy water or diluted vinegar to protect the color coated finish.
- Use a soft, dampened sponge or cloth to clean. never use abrasive material like a bristle brush or scouring pad.

Do's

- Clean the outside surface of the faucets with mild soap and warm water or chalk powder. Wipe the entire surface completely dry with a clean, soft cloth.
- Remove and clean the 'tickly' and aerator mess from time to time to increase longevity and clean the dirt sedimentation, thus avoiding clogging.
- For perfect foam flow of water, the aerators should be cleaned regularly.
- Always test your cleaning solution on an inconspicuous area on the product before applying it to the entire surface.
- Wipe surface clean and rinse completely with water immediately after applying cleaners.
- Clean stainless steel surfaces once a week. Do not use cleaners containing chloride on stainless steel. If used, rinse the surface immediately to prevent corrosion.

Don'ts

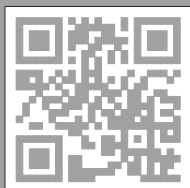

- Do not allow cleaners to sit or soak on the product.
- Cleaning products containing the following chemicals can cause this bathing product to crack or discolor and use of cleaning products containing these chemicals will void this warranty:
 - Naphtha
 - Amyl Acetate
 - Hydrogen Peroxide Solution (common hydrogen peroxide)
 - Toluene
 - Ethyl Acetate
 - Lye (common in drain cleaners)
 - Acetone
